Laura Schalkhäuser

It is a great honor and pleasure for me to present two projects close to my heart to you today.

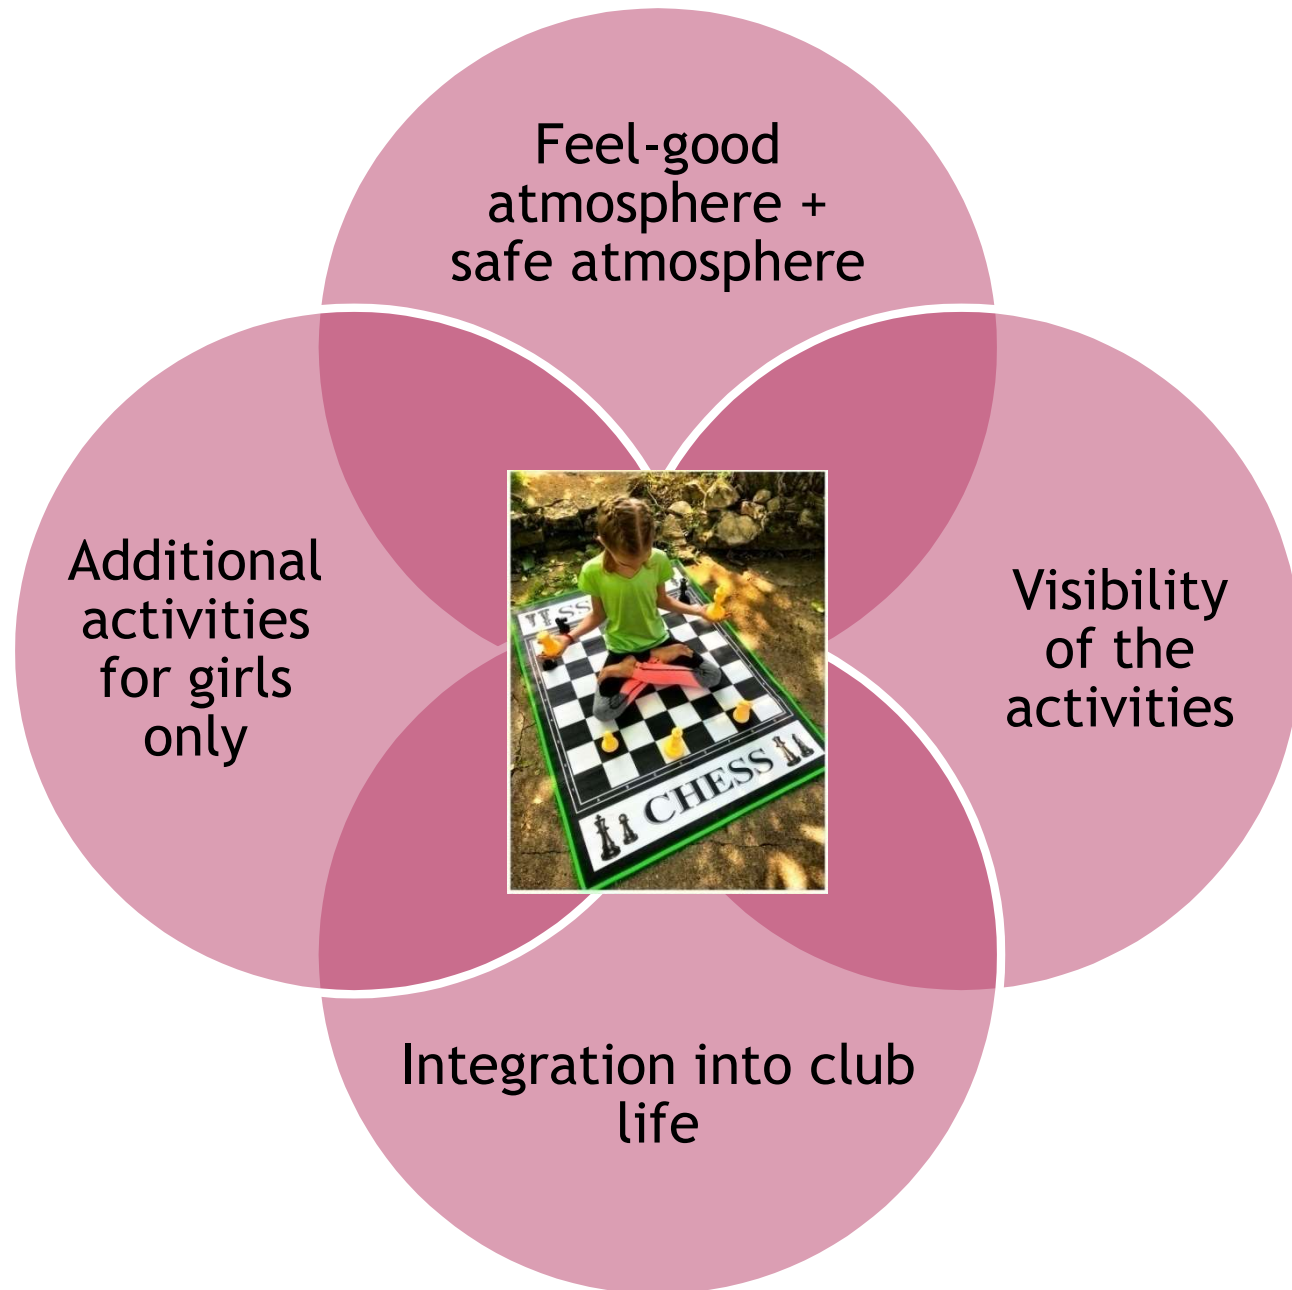

The first is:

Chess for Girls

Honestly, I could talk to you about this topic for hours, but I will try to keep it brief.

Currently, only just under 10% of chess players in German clubs are female. In my opinion, it would be useful to improve the following four areas of chess for female players:

- Feel-good atmosphere + safe atmosphere
- Additional activities for girls only
- Visibility of the activities
- Integration into club life

I would like to review the point "Additional Activities for Girls Only" with you:

Additional activities for girls only

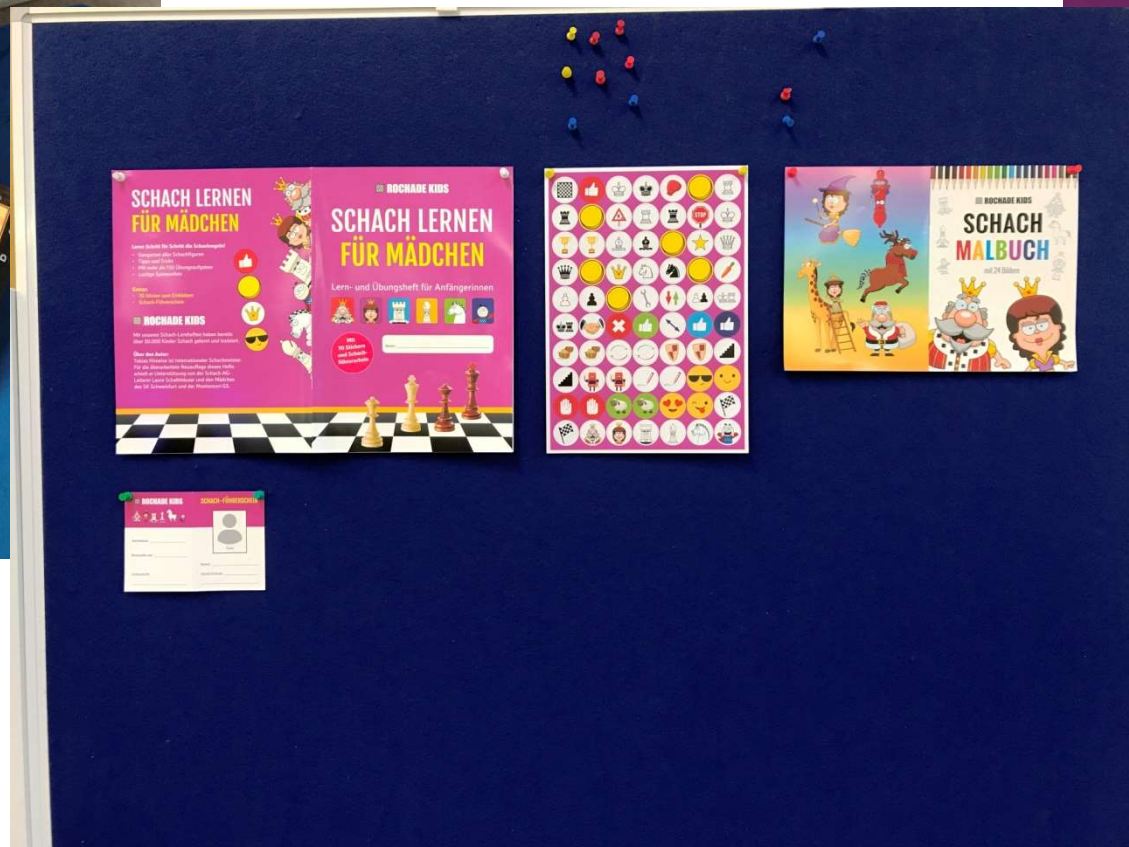

- Training for girls only
 - Tournaments for girls only
 - Team Matches for girls only
 - Worksheets for girls only
 - Workbooks for girls only
 - Crafts for girls only
 - Exercises for girls only
- and much more
